

Project 1.2.1 Evaluation Rubric

Topics	4 points	3 points	2 points	1 point	Teacher Comments
Biome Info <ul style="list-style-type: none"> • Location • Climate • Physical Features • Plants and Animals • Natural Resources • Usage 	All requested information is included and the presentation describes the biome with examples and clear details explaining how and why the biome exists as it does.	The biome research has all topics addressed but some are not covered in much detail. The team needs to research each topic more thoroughly.	The biome research is missing one or two topical areas. The team needs to research each topic more thoroughly.	Information about the biome is very sketchy and three or more topical areas are missing. The team has not put much effort into assembling adequate information.	
Graphics/ Picture	Presentation includes at least five images of the overall representation of the biome as well as a clear picture of each plant and animal showing physical features of each.	Presentation includes at least five images of the overall representation of the biome as well as a picture of each plant and animal.	Presentation includes four images of the overall representation of the biome and is missing one to two pictures of plants and/or animals.	Presentation includes three or fewer images of the overall representation of the biome and is missing three or more pictures of plants and/or animals.	
Picture Captions	All graphics have a caption or label. Labels for plants and animals include common name, scientific name, and photo date.	All graphics have a caption or label. Labels for plants and animals are missing one of the following: common name, scientific name, or photo date.	Most graphics have a caption or label. Labels for plants and animals are missing details.	Three or more graphics are not labeled. Plant and animal pictures do not contain additional information.	
Teamwork	Team members share presenting equally. Each member of the team is able to answer questions about the biome and clearly understands why the biome they researched is different from other biomes in the world.	Team members share presenting equally. One member of the team is unable to answer questions about the biome.	Two team members dominate presentation. One member of the team is unable to answer questions about the biome.	One team member dominates presentation. One or two members of the team are unable to answer questions about the biome.	
Bibliography	Resources used are properly cited using APA style with a minimum of three different citations.	Resources are provided from three or more sources, but errors are found in the APA style.	Only two references are listed in correct APA style.	Fewer than two resources are cited and do not use APA style.
