

## Presentation Notes

Presentation How Soils are Formed

Lesson 4.1

Notes from Presentation:

### Soil Development

- Climate
- Organisms
- Parent Material
- Time
- Topography

### Climate

Climate includes several forces that act upon soils.

### Time

The forces that form a given soil indicate how long it took the soil to be formed.

### Erosion

- Steep Ground
- Too much erosion
- Working soil in rainy season
- Not protecting soil with ground cover

# AFNR Reflection Page

List five key points that are important to remember from this presentation.

1. Soil Development
2. Tme
3. Erosion
4. Climate
5. None

List three ideas or concepts that this new information has in common with previous things learned.

1. How to keep good soil
2. None
3. None

List questions or ideas that remain unclear about the information presented that should be asked for clarity at the appropriate time.

None
