## Project 4.1.1 Evaluation Rubric

Topics	4 points	3 points	2 points	1 point	Teacher Comments
<b>Cell Part Analogies</b>	The collage includes two “look like” analogies and three “function like” analogies with everyday pictures that answer those statements.	The collage includes two “look like” analogies and three “function like” analogies. The collage is missing everyday pictures that answer those statements.	The collage is missing one “look like” or “function like” analogies. The remaining analogies include everyday pictures that answer those statements.	The collage is missing two or more “look like” or “function like” analogies and/or everyday pictures that answer those statements.	
<b>Science Content</b>	The student correctly answers all five questions with detail making it obvious the student clearly understands the location, structure, and function of their cell part.	The student correctly answers all five questions but lacks detail and it is not obvious the student clearly understands the cell part.	The student incorrectly answers one question and lacks detail in the other answers.	The student incorrectly answers two or more questions.	
<b>Appearance and Effectiveness</b>	The collage includes a quality picture of the cell part and detail is easy to see. All analogies are typed and are clearly written with detailed “look like” and “function like” statements.	The collage includes a picture of the cell part. All analogies are typed with “look like” and “function like” statements.	The collage includes a picture of the cell part. Analogies are not typed but are written with “look like” and “function like” statements.	A quality detailed picture of the cell part is missing. Analogies are not typed nor clearly written with “look like” and “function like” statements.
