	List current products and interventions addressing WOC needs	6		
<b>Planning</b>				
	Formulate a comprehensive management plan based on WOC needs and on specific Braden sub-scale scores	12		
	Propose alternative products. Include generic & brand names	4		
<b>Evaluation</b>	Design plan of care evaluation parameters that demonstrate the desired outcomes (i.e. how do you know your plan of care is working?)	6		
<b>Rationale</b>	Explain the rationale for identified interventions	6		

WOC Nursing Education/ Comprehensive WOC Plan of Care/ 50 points

Organization of Project		Possible Points: 3	Awarded Points:	
<b>Formatting</b>	Rationales referenced & cited according to APA formatting guidelines			
	Proper grammar & punctuation used			
	References <i>See the course syllabus for specific requirements on references for all assignments.</i>			
	Submit completed & graded project electronically to your dropbox.		Total points:	

**Remember, this is your capstone project that demonstrates how you integrate full-scope practice as a WOC nurse specialist. Make sure you select a patient with complex WOC nursing needs. Have you incorporated all the physical, psychosocial, and economical care issues associated for this patient? Did you cover wound, ostomy, and continence care needs? How will you measure successful outcomes?**

**Instructor Signature, Date**
