Subject: New response for survey 'Clinical Performance Evaluation - Onsite Clinical Sites'

GENERAL RESPONSE INFORMATION

Respondent: Anonymous

Completed Survey: Yes

Response Start Time: 09/10/2021 12:52:30 Eastern Standard Time

Response End Time: 09/10/2021 13:00:31 Eastern Standard Time

SURVEY RESPONSES

SCORE: 0

1. Please enter the following information

Date of clinical experience (enter here): w/o 9/6/2021

Student Name (enter here): Sara Thompson

Preceptor Name (enter here): Linda Coulter

2. Technical skills

Adept with equipment. Seldom omits essential items.

3. Planning & organizational skills

Preparations are thorough. Anticipates complications. Work is efficient & organized.

4. Applied knowledge

Needs minimal guidance in understanding patient needs. Uses resources available.

5. Judgement & reasoning

Judgements are appropriate. Actions are logical. Independent in decision making.

6. Reaction to stress

Calm; effecient; sets good priorities.

7. Response to direction

Easily directed. Accepts & acts on criticism. Flexible & eager to learn new skills. Draws on strengths of instructions. Independent.

8. Industry & reliability

Self directed. Seeks added experience. Inspires confidence. Works efficiently without supervision.

9. Time & attendance

Dependable & punctual. Ensures that all appropriate people are notified in case of absence or tardiness.

10. Professional demeanor

Pleasant, courteous, & discreet. Communication is effective & appropriate in all situations.

11. Wound skills completed today; check all that apply:

P.I. Risk assessment

Wound assessment

Topical treatment selection

Support surfaces

Wound care techniques

Periwound skin management

Tube stabilization

12. Ostomy skills completed today; check all that apply:

Stoma site selection

Ostomy assessment

Peristomal skin assessment

Pouching selection

Peristomal skin management

Tube stabilization

13. Continence skills completed today; check all that apply:

UI & FI skin management

14. Comments

Sara continues to roll up her sleeves and get directly involved in patient care. She's doing well with choosing wound care and ostomy care products and considers other options. She has done patient teaching and also taught nursing students about pouch change/stoma/skin care. We have discussed and reviewed a number of products, including tube stabilization devices, NuHope/Marlen pouches, and others. Sara participated in hands-on NPWT application (Veri Flow and Cleanse Choice types) and was able to explain why different types of NPWT would benefit patients.

Sara assisted with hernia prevention belt fitting and contacted NuHope to ensure proper product was ordered.

Sara continues to excel in her clinical, being an excellent bedside nurse has helped her throughout.
