Ostomy assessment

Peristomal skin assessment

Pouching selection

Peristomal skin management

Fistula care

13. Continence skills completed today; check all that apply:

Select body worn product

14. Comments

It was a pleasure to Precept Rebekah! It was the beginning of her clinical experience, and she did great! I had her do hands on throughout, with my guidance, and she jumped right in with no hesitation. We discussed pouching assessments, pouch fittings and how to pouch and trouble shoot a fistula. Rebekah works well with the patients.
