Registered Nurse

Qualified nursing professional who has earned a bachelor's degree in nursing, an associate degree in nursing, and is certified in both ACLS and BLS training. I have been working full time as a professional nurse since 2013. I have experience with a multitude of diagnoses ranging from mental health to fragile end stage illnesses. My experience encompasses a variety of work environments, diverse patient populations, and integrated work teams. I truly value the contributions my experiences have afforded me.

- ♦ Strong background in hospice case management, providing direct patient care/services in accordance with legal, ethical, institution and Medicare standards to primarily geriatric patients whose conditions are characterized by complex health care needs. Provide education and support to patients/caregivers regarding end of life changes and plan of care. I am adept at handling high case loads while providing quality care in a safe humane manner.
- ♦ Lead nurse for patients in infirmary, an acute on chronic care setting managing a variety of diagnoses such as cardiac, respiratory, neurological, oncology, endocrine including diabetes, end stage renal disease, psychiatric, etc. Participates in weekly care team meetings to promote appropriate plan of care.
- ♦ Excerpts from performance evaluations:

"...gives 100% every day to each of her patients...able to provide the compassionate care necessary...often goes above and beyond...seamlessly communicates with all members of the team to advocate for the best care...she is always ready to be a team player...is a true asset to this company..."
