

SEEK & FIND: OSTOMY

Student Name Sherry Storm Date 7/3/2023

Instructor Signature _____ Student's earned points _____/20

This assignment is intended to help you become familiar with some of the products used when providing ostomy care. Carefully read the information to help you identify the products that meet the descriptions being provided.

**It is important to note a pouching system is a skin barrier wafer and a pouch. A complete answer should include both, unless otherwise indicated. Include the manufacturer and full, product name. Product numbers should not be used.

	Possible Points	Earned Points
<p>Name 2 pouching systems in each of the listed categories. The products should be from two separate companies.</p> <p>Example: Cymed one-piece, drainable pouch with thin hydrocolloid skin barrier (washer) and press 'n seal closure. This example can not be used as one of your answers.</p> <p>1. Flat, one-piece pouching system</p> <p> a. <u> Hollister Premier One Piece with Flat Flextend Skin Barrier </u></p> <p> b. <u> Coloplast SenSura Xpro Flat MAXI Drainable Pouch </u></p> <p>Describe abdominal characteristics, stoma characteristics, and one other reason why you would choose this system.</p> <p>Flat abdomen without dips or folds, protruding stoma, less steps for system application_____</p> <p>2. Flat, two-piece pouching system</p> <p> a. <u> Coloplast SenSura Mio Flex Flat Barrier/SenSura Mio Flex MAXI Pouch Drainable/Closed </u></p> <p> b. <u> Hollister New Image Two-Piece Pouching System with Flat CeraPlus Skin Barrier w/New Image Pouch </u></p> <p>Describe abdominal characteristics, stoma characteristics, and one other reason why you would choose this system.</p> <p>Flat abdomen without dips or folds, protruding stoma, better for when pouches changed more often than skin barrier, allows for alternating pouch types (size, drainable/closed), can be easier to center the barrier over the stoma</p>	3	

SEEK & FIND: OSTOMY

<p>Name 2 pouching systems in each of the listed categories. The products should be from two separate companies.</p> <p>Example: Genairex 10" one-piece extended wear, precut urostomy system with built-in convexity. This example can not be used as an answer.</p> <p>1. Soft/flexible convexity</p> <p>a. _Hollister New Image Two-Piece Pouching System Soft Convex Skin Barrier w/New Image Drainable Pouch</p> <p>b. _Coloplast Two-Piece SenSura Mio Click Convex Light Barrier w/SenSura Mio Click MAXI Drainable Pouch</p> <p>Describe abdominal characteristics, stoma characteristics, and one other reason why you would choose this system.</p> <p>Abdomen with dips or folds, flush or retracted stoma, stoma os off center</p> <p>3. Hard/firm convexity</p> <p>a. _Hollister Premier One-Piece Pouching System Convex Barrier w/Drainable Pouch</p> <p>b. _Coloplast Assura Deep Convex Barrier w/Assura MAXI Drainable Pouch</p> <p>Describe abdominal characteristics, stoma characteristics, and one other reason why you would choose this system.</p> <p>Uneven peristomal area, leakage around a flat stoma, retracted or flush stoma, liquid/loose effluent, flaccid abdomen</p> <hr/>	<p>3</p>
