

Cleveland Clinic WOC Nursing Education
Specialty Complex Plan of Care

Name: _____ Date: _____

Specialty: Wound _____ Ostomy _____ Contenance _____

Select a patient with complex wound, ostomy, or continence nursing needs. Incorporate all the physical, psychosocial, and economic care issues associated with this patient. How will you measure successful outcomes? The evaluation should identify what you saw, if you were able to follow-up with this patient, or would see if you were able to follow-up. In other words, how would you know your interventions are successful.

Content		Possible Points	Awarded Points	Comments
Summary of Selected Patient	Summarizes pertinent medical and surgical history	2	2	
Assessment	Describe assessment findings	6	6	
	List current products and interventions addressing WOC needs reflective of the specialty scope of practice (wound, ostomy, or continence)	6	6
