Mental Health Case: Andrew Davis

Guided Reflection Questions

Opening Questions

How did the simulated experience of Andrew Davis' case make you feel?

Talk about what went well in the scenario.

Reflecting on Andrew Davis' case, were there any actions you would do differently? If so, what were these actions and why?

Scenario Analysis Questions*

PCC   What issues have you identified that could be barriers to a successful treatment for Andrew Davis?

How would you address the denial?

PCC/I   Identify a support group that would be beneficial to Andrew Davis related to his position in the community.

PCC/I   Identify support groups that would be beneficial to Andrew Davis' family.

S/PCC   Andrew Davis is currently in Stage I of alcohol withdrawal. As he moves into Stage II (24 to 72 hours) and then into Stage III (after 72 hours), what behaviors should be assessed for and what safety measures should be initiated?

Concluding Questions

How would you apply the skills and knowledge gained in the Andrew Davis case to an actual patient situation in different acute care units (emergency room, intensive care unit, obstetrics unit, etc.)?

---

* The Scenario Analysis Questions are correlated to the Quality and Safety Education for Nurses (QSEN) competencies: Patient-Centered Care (PCC), Teamwork and Collaboration (T&C), Evidence-Based Practice (EBP), Quality Improvement (QI), Safety (S), and Informatics (I).
