

Mental Health Case: David Carter, Part 2

Guided Reflection Questions

Opening Questions

How did the simulated experience of David Carter's case make you feel?

Talk about what went well in the scenario.

Reflecting on David Carter's case, were there any actions you would do differently? If so, what were these actions and why?

Scenario Analysis Questions*

PCC What needs to be stressed during discharge teaching related to his new medication regimen (sertraline and fluphenazine)?

PCC/I Identify community resources in your area that are available to David Carter and his family. One should be for David Carter, one for his mother, and one for the family.

PCC/S What other discharge teaching is recommended for David Carter and his family?

Concluding Questions

How would you apply the skills and knowledge gained in David Carter's case to an actual patient situation in different acute care units (emergency room, intensive care unit, obstetrics unit, etc.)?

* The Scenario Analysis Questions are correlated to the Quality and Safety Education for Nurses (QSEN) competencies: Patient-Centered Care (PCC), Teamwork and Collaboration (T&C), Evidence-Based Practice (EBP), Quality Improvement (QI), Safety (S), and Informatics (I).
