Heather McKee Justin Morrison Juliet Nwokocho	11/3/20	Methamphetamine Use Disorder	Plaza	J. Ellis
Adrienne Rey Ky Rodriguez Laura Winn	11/4/20	Opioid Use Disorder	Plaza	Powers

Submit your brochure/handout as an attachment via email to your assigned instructor **by Thursday @ 0700**, the week before you present and **before making copies**. Since you are presenting to a live patient audience, we need time to ensure your info is accurate and your brochure is ready for you to publish.

Additional information about your audience to consider as you plan your presentation:

Covenant Behavioral Health: This is an acute psychiatric unit within Covenant Health that is for short-term crisis stabilization. The average patient may have schizophrenia, depression/suicidal ideations, bipolar disorder, intellectual developmental disabilities, anxiety disorders, substance use disorders, personality disorders, dementia, and other chronic illnesses. Because of **safety concerns**, you will not be able to provide any gifts for patients (i.e. tooth brushes, lotions, pill holders, etc.). You will need to provide approximately **10** brochures/handouts.
