DAS Assignment # 1 (1-4)

Name of the defendant:

Phillip James Alviano

License number of the defendant:

420750

Date action was taken against the license:

Type of action taken against the license:

license revoked

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

Failed to transcribe an order and administered cipro 500mg. IV, failed to document and complete assessment, failed to adequately document the care provided, failed to document the removal of a Foley catheter, failed to adequately document the status of medical record # 038174.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.

This nurse could have documented correctly and at the right time. Also, he could have transcribed all orders in medications.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

I would notify physician and the charge nurse. Explain the documentation did not seem right and double check myself to be sure I was not missing anything.
