

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: Emilee Morales

Date: 10/4/20

DAS Assignment # 1 (1-4)

Name of the defendant: Thomas E Allison Jr.

License number of the defendant: 240587

Date action was taken against the license: 2/14/17

Type of action taken against the license: Revoked (RN)

The main reason the respondent was sent a letter to appear is because of the nature of the charges against the respondent. The respondent failed to appear causing the revocation. The respondent was indicted on the charge of "Indecency With a Child". This charge is a felony and the court documents say that the offense was committed on June 8, 2016 in Wichita, TX.

The respondent was given notice to appear before the Texas Board of Nursing, which the respondent failed to appear. I feel as if the respondent would have appeared, the license may have not been revoked. However, given the nature of the charge, he may still have lost it. This said incident did not happen on hospital ground, therefor there was no harm done to a patient.

First off, I would make sure the "victim" was safe and then I would notify the proper authorities. I would stay with the victim to make sure the respondent was not able to do any more harm. Lastly, I would report my findings to the state board.
