Instructional Module 6  
Obstetrics Community Clinical Experience

Community Site: Dr. Blann's Office

1. What did you observe during the day? Were there any specific procedures that were able to participate in or observe?  
Dr. Blann was out sick, so all ultrasounds were rescheduled. I was able to do heart sounds with a doppler & helped apply a fetal monitor.
2. What was the best/most interesting part of the experience?  
The fetal monitor was interesting, even though the baby didn't want to cooperate.
3. Is a community nursing position something that you would consider working in? Why or why not?  
Yes, I would consider it. The nurse in the office seemed happy with her work.
4. Do you feel like this community site met the needs of the population they serve? Why or why not?  
Yes, the patients got their questions answered & seemed satisfied with their care.
5. Did you witness patient teaching? What general things were taught to this population? Do you feel that patient teaching in this community site was adequate? Why or why not?  
No. All the patients we saw today were established patients, no teaching was necessary at this time.
