

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: Isaiah Herrera

Date: 10/10/2020

DAS Assignment # 2

Name of the defendant: Janice Marie Dudley

License number of the defendant: 763684

Date action was taken against the license: 12/09/2014

Type of action taken against the license: Warning with Stipulations

Dudley took supplies in the form of IV start kit as well as NS to administer fluids to a friend's husband. Not only was the procedure done with out an order, the equipment was essentially stolen from the facility she word.

Dudley should have refused to do any medical procedures outside of a medical facility regardless of the circumstance.

Had I discovered missing equipment, it would have to reported to the supervisor. All of those items have a purpose and if they can not be accounted for, there is a potential that there could be unforeseen shortages if not maintained. Also, procedures done outside of the work place puts individuals in danger as it leave opportunity for the proper supervision to be overlooked. It is both reckless and dangerous to an individual to bypass the proper procedures set in place for patient safety.
