David Carter

Adm On: 10/14/2020
 Date of birth: 7/10/1992
 Age: 28
 Gender: Male
 Diagnosis: Schizophrenia

Basic View | Detailed View

- 00:00 You checked scene safety. It was correct to check scene safety in order to maintain your own safety.
- 00:27 You [washed your hands](#).
- 00:33 You [identified the patient](#).
- 01:30 The patient said: I'm not going to eat; no one can make me eat poison. You answered: Have you had similar experiences? You used the therapeutic technique of encouraging comparison.
- 01:34 You asked the patient: Can you tell me a little bit more about what's going on with you today? It was appropriate to ask the patient what was going on with him to get an understanding of this.
- 01:54 The patient said: They came and got me and forced me into this poison prison. It's your fault for keeping us here to rot of poison! You answered: My purpose for being here today is to help you and complete your nursing assessment. You used the therapeutic technique of giving information.
- 01:57 You supported the patient about safe environment.
- 02:18 You asked the patient: Over the past year, when did you feel your best? It was appropriate to ask the patient about when he felt his best.
- 02:34 The patient said: Are you one of those spies too? The other ones tried to poison me with their poison trays. You answered: Mr. Carter. I am your nurse. I'm here to take care of you today. You used the therapeutic technique of giving information.

Your main opportunities for improvement

- ✖ The patient said: Choose a side or take a ride bribe. That's what he told me to say. You answered: Who told you to say that? You used the nontherapeutic technique of indicating the existence of an external source.
