<p><b>Step 1 Description</b></p> <p>We were given a pt to work up &amp; take care of. The pt needed meds &amp; was in moderate pain. I was the nurse taking care of the pt. I had 25 min to do what was needed by the pt depending on the scenario. This was a pass or fail activity.</p>	<p><b>Step 4 Analysis</b></p> <p>This is a testing point to make sure we are on track with what we have learned &amp; see if we are ready to move on.</p>
<p><b>Step 2 Feelings</b></p> <p>With this being a graded CPE, I was very nervous. I was afraid I was going to miss something &amp; not do well. I was able to bring notes with me to help me stay on track &amp; I was very thankful for that.</p>	<p><b>Step 5 Conclusion</b></p> <p>In conclusion, this was a good opportunity to practice what I have been learning. It may make us uncomfortable, but we sometimes have to be uncomfortable to do our job.</p>
<p><b>Step 3 Evaluation</b></p> <p>The scenario went really well &amp; I passed. The instructors did a great job setting this up. This was a good opportunity to put everything we have learned together.</p>	<p><b>Step 6 Action Plan</b></p> <p>Doing these scenarios will help me to become a good nurse. It gives us an opportunity to apply what we have been taught.</p>
