

	Safety and Security	Standard Precautions	Communication
Video by LD - Insulin Administration	<ul style="list-style-type: none"> - Didn't clean med tray - Never asked or verified allergies - Patient was not ensured if they were going to eat after insulin. 	<ul style="list-style-type: none"> - Never verified physician orders (1st check) - Never verified patient allergies - didn't put on gloves during med prep. - never wiped vial prior to inserting medie - Did not get 2nd verification before administering insulin. - Nurse needs to make sure patient eats after insulin 	<ul style="list-style-type: none"> - Did not perform proper a/cet. - Communication still is not suitable when talking to patient

3) Start Unprofessional Practice Video

Critical Thinking	Documentation	Human Caring/Relationships	Professional Role Performance
<p>- Did not think about assessing a new blood sugar</p>	<p>- Documented a witness that did not happen.</p>	<p>- Called patient wrong name</p> <p>- Never say "a lot of people are not making it"</p>	<p>- Did not maintain sterile procedure during med prep.</p>

4) Maintain a clean working environment
