

## Covenant School of Nursing Instructional Module 7 - Clinical Performance Evaluation Tool

Based on the **Student Learning Outcomes (SLOs)** for IM 7 at the end of the Instructional Module the student will:

- 1. Assessment & Intervention:** Perform interventions based on assessment of patients and families with complex healthcare needs.
- 2. Communication:** Implement effective communication methods when caring for patients and families with complex healthcare needs.
- 3. Critical Thinking:** Perform nursing interventions based on prioritization and independent judgments and evidenced based practice.
- 4. Human Caring & Relationship:** Incorporate concepts of human caring and relationships with patient and families with complex healthcare needs.
- 5. Management:** Prioritize resources in order of effectiveness and accessibility for patients and families with complex healthcare needs.
- 6. Leadership:** Implement behaviors consistent with an effective team leader.
- 7. Teaching:** Modify teaching plans for patients and families with complex health care needs.
- 8. Knowledge Integration:** Implement holistic, evidence-based nursing care to patients and families with complex healthcare needs.

Universal Competencies are assessed during each encounter with patients, manikins, and other people in the health care setting.  
All competencies are aligned with Instructional Module 7 Student Learning Outcomes (SLOs).

Instructional Module 7 - Clinical Performance Evaluation Tool

Student: Eliza Montez

IM 7 Start Date:

9/28/2020

Formative Comments:

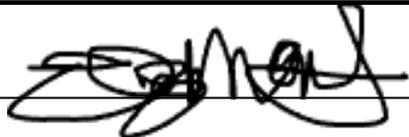

WEEK 4: Eliza was in SICU this week. She met all clinical criteria. Great job this week! JJones. Week 5: no clinical d/t weather. Week 6: Eliza cared for a very complex patient and was able to discuss his plan of care and apply theory. She successfully completed her bedside CPE. She was very thorough especially in the area of patient safety. Absent day 2. Appropriately notified instructor. Great job in SICU. Dkpatrick Week 7: Great job in the ED. CLeavell MSN, RN

Summative Evaluation:

Eliza has completed the clinical component of IM7 and is ready to progress to IM8. JJones.

Performance Grading Details:

Universal Competency Performance Levels:	M=Met	U=Unmet	NI=Needs Improvement
Met (M) - student performs the Universal Competencies throughout the clinical experience. The first Needs Improvement (NI) within each Universal Competency will result in documentation of coaching opportunities on the clinical evaluation.			
A second negative evaluation of the same universal competency will result in a verbal warning utilizing the Corrective Action form.			
A subsequent Unmet (U) on the same competency will result in the continuation of progressive disciplinary corrective action up to and including instructional module failure.			

<b>Clinical Documentation Performance Levels:</b>	<b>M=Met</b>	<b>U=Unmet</b>
Met (M) = all clinical documentation is thoroughly completed and submitted by assigned dates and times.		
Unmet (U) = incomplete or inaccurate documentation or clinical paperwork that is not submitted by the assigned date/time.		
The first Unmet on clinical paperwork will result in a verbal warning utilizing the Corrective Action form.		
A subsequent Unmet (U) on clinical paperwork will result in a continuation of progressive disciplinary corrective action up to and including instructional module failure.
