

Covenant School of Nursing
Instructional Module (1) Learning Guide
Topic: Infection Prevention and Control

Learning Goals/Outcomes

Upon completion of this lesson, you will be able to:

- Define the links of the chain (cycle) of infection
- Explain the relationship between the chain and the infectious process
- Discuss the significance of identification, prevention and control of infection
- Demonstrate Proper Aseptic Infection Control Practices

Pre-Class Preparation

Required:

- Review two lecture PPTs: Infection Prevention and Isolation
- Read:
Potter & Perry (9th ed.): Ch 28, pp 422– 452 & skill 28-1, pp 451-453.

Complete:

- The two online activities listed in Learning Activities.
- **An average score of 80% on the test included in the activities is required. Failure to complete the assignments by the due date may result in an absence – review your syllabus.**

Additional Resources (*for these websites, search infection control topics*):

- www.jointcommission.org Joint Commission: National Patient Safety Goals(NPSG)
- www.who.org World Health Organization (WHO)
- www.cdc.org Centers for Disease Control and Prevention (CDC)

Learning Activities

Classroom Activities:

- Lecture
- Critical thinking exercises/scenarios: Chain of Command Exercise, Isolation Donning/Removal Demonstration and Glo-Germ Activity

Laboratory/Clinical Activities:

- Simulation Application/Removal of PPE, Isolation Scenarios & Hand Hygiene Lab

Two Online Activities:

- (1) My Evolve
Select Clinical Skills: Skills for Nursing Collection
Select Course Content
Select Essentials Collection
Select & complete the following modules:
(1) Performing Hand Hygiene
(2) Using PPE

Evaluation Methods

- Scenario based simulations in lab
- Correct application and removal in clinical settings
- Unit Exam
- Simulation & Mock CPE
