

	Safety and Security	Standard Precautions	Communication
Video by CK - CVAD Dressing Gone Awry	Did not to the 4' ps when leaving the patients room	Didn't clean the table where she laid the cvad dressing	
	Failed by checking the patients physical security before leaving the room	Very disorganized with her gloving on her sterile gloves	Complaining about her work duties in front of the patient
		Did not do hand hygiene when taking off patients mask	Did not listen to her patient as she complained about a itching she ignored it

2020 Start Unprofessional Practice

Critical Thinking	Documentation	Human Caring/Relationships	Professional Role Performance
Did not put the cvad dressing on correctly like evidence based practice	She did not document the performance at any time	She wasn't caring to her patient by the way she was demonstrating it by her actions in a noncaring matter	Not being very professional by not being very organized with her performance of skills
She did not take off her mask as that is institutional standards for changing a cvad dressing
