

	Safety and Security	Standard Precautions	Communication
Video by LD - Morphine Administration	Did not ask for allergies	Did not wear gloves during the administration of medication	Did not ask very respectfully how patient was feeling during her visit
	Did not do her 4 p's before leaving the room	Did not clean correctly the medication drawer where she carried her medications	
	Did not worry about the patients security by locking the bed or checking to have non skid socks on		
	Left the bed rail down which puts our patient in danger

# Start Unprofessional Practice Video

Critical Thinking	Documentation	Human Caring/Relationships	Professional Role Performance
Did not administer correctly the medication as evidence based practice	Did not document any of the procedures before leaving the room	Not very caring by entering the room with her phone and with loud music	Not professional by entering the medication room with her being on her phone
Did not administer the medication at a rate of 5 min like indicated		Not very caring by the way she spoke to the patient in a noncaring way	Not professional because she did not comply with agency protocols
Did everything very unorganized when administrating the medication		She was very rough with her patient when being by her side	Not very organized with her performance administrating the medication
