

	Safety and Security	Standard Precautions	Communication
Video by LD - Morphine Administration	did not push morphine over 3-5 mins, just gives it fast	no hand hygiene/gloves when drawing and giving med	very loud music playing with disregard to patient
	did not swab the vial before drawing from it	doesn't sanitize med tray, uses unclean hands to wipe out before putting meds in	no ADET upon entering room
	dropped the CVAD port after swabbing with alcohol, then does not reswab	no HH/gloves when touching patient	
	only had 2 bed rails up before leaving room		
	brings multi-dose vial out of med room into patient room

Start Unprofessional Practice Video

Critical Thinking	Documentation	Human Caring/Relationships	Professional Role Performance
no GI/Respiratory/pain assessments done before med admin	did not document/save meds admin before logging off	gets patient wet with flush, not very concerned with patient comfort or safety	listens to music in room
did not look at CVAD insertion site and assess before med admin			very informal language used to address patient
