

Hello, Ms. Pia

Over the phone I was trying to explain that I would prefer to give you my schedule later in the week with the guidelines that were given to students earlier (that is to give the schedule two days in advance of working. Since I was not provided many options on days to choose, I was hoping to wait to see my preceptors upcoming schedule to see if it better aligned with mine. I understand that we have two different times to change our schedule so I do think that will accommodate me, but I just wanted to express this to you, so we were both on the same page.

I will be working on February 26 with Whitney if possible.

February 27, February 28, March 5, March 6, March 8, March 11, March 12

Thank you,

Juliet Nwokocha
