

Overview

Each student has been grouped by clinical week. Each clinical week's group will be divided into 2 groups (Group AM & Group PM) to accommodate COVID19 restrictions of no more than 5 students in Covenant's Simulation Center. All students prior to simulation will complete the assigned discussion board assignments as outlined in the learning guide.

Student Paperwork

BEFORE TUESDAY: You will prepare the medication sheet and the first page (Boxes 1-6) of the Critical Thinking Worksheet (CTW) IN ADVANCE and bring to simulation on TUESDAY for BOTH simulations to be performed that day. This is your 'Ticket to class.'

TUESDAY EVENING: You will complete your CTW page 2 (boxes 7-13) and complete any additional medications used in the scenario ONLY for the scenario where you played the role of the nurse. This is your 'Ticket to Class for Wednesday.'

WEDNESDAY: Review CTW from Tuesday as needed. Begin new scenarios that you will work on together at the simulation center.

THURSDAY: Clinical Reflection due to Dr. Nesbitt's drop box by 0830. You may write about anything that occurred over the two days in simulation.
