

IM 3 Medication Presentation Group Assessment Form

Please use this sheet of paper to assess your assigned group. You do not need to put your name on this sheet. Please state your group topic. If a member of your group did not participate despite fervent efforts to include them, please reflect the information below. If two or more members of a group state an individual did not participate, 10% will be deducted from the Medication Presentation.

Group Topic:

H2 blockers vs PPI

Did your group work well together?

I think our group worked well together. We were able to brainstorm freely and come up with a mutual creative presentation.

Did your entire assigned group participate?

Yes all four members of the group participated.

Was this a good learning experience?

In my opinion it was a good learning experience as it helped me get out of my comfort zone participating in a unique presentation such as a video script. It was good communication skills as well.
