

I want to be a nurse because I have a passion for serving people. I believe it is so important to take care of those who are not able to or cannot take care of themselves. I feel like nursing is something that has always just kind of called my name. I have always had a strong need to help and care for others, so getting to apply that into my everyday life is a big reason as to why nursing appeals to me so much. I believe my calling in life is to make a difference in the lives of others through nursing.
