

## PED 1 & 2 vSim Assignment

### Instructions:

You have been assigned one pediatric patient simulation experience (see clinical schedule for your assigned scenario). For your assigned patient, you will complete the following instructions: 1) **screenshot your score for the virtual simulation and the post quiz**, and 2) **attach your reflection questions**. Submit these documents to the appropriate Dropbox (Pedi/PICU/PED AM clinical or Pedi/PICU/PED PM clinical) by Friday morning at 0830 of your PED clinical week.

### LEARN FLOW - STEP ONE

- Finish the Suggested Readings

### LEARN FLOW - STEP TWO

- Take the Pre-Simulation Quiz
- Student may take several times using the answer key to provide immediate remediation prior to the virtual simulation. Quiz is recorded as complete

### LEARN FLOW - STEP THREE

- Launch the virtual simulation
- Complete the vSim Tutorial prior to launching Step Three
- Each clinical experience in the simulation lasts a maximum of 30 minutes
- Complete the simulation as many times as it takes to meet an **80% benchmark**

### LEARN FLOW - STEP FOUR

- Complete the Post-Quiz
- The answer key is not visible until after the quiz has been submitted
- The quiz grade is recorded as a percentage. Complete the post-quiz as many times as needed to meet an **80% benchmark**

### LEARN FLOW - STEP FIVE

- Not required

### LEARN FLOW - STEP SIX

- Reflection Questions (only the questions listed below for your assigned scenario)
- Complete the assigned reflection questions and submit to instructor via Dropbox

**Below are the instructions on how to access your patient:**

1. Go to <http://thePoint.lww.com/activate>.
2. Click on “Return User” and enter the username (email address) and password that was assigned to you (see below). **Do not change your username or password for any reason.**
3. From the **“My Content”** page, click on vSim for Nursing | Maternity and Pediatric.
4. Scroll down to pediatrics. Find your assigned patient simulation.

If you experience any problems, check the code again and re-enter it. If it does not work, contact Lippincott Online Product Support at 1-800-468-1128 or [techsupp@lww.com](mailto:techsupp@lww.com) for assistance.

## Reflective Question Assignments

### Scenario 1: Seizure disorder

- 1) What priority problem did you identify for Jackson Weber?
- 2) What complications might Jackson Weber face if safety precautions are not taken during the seizure activity and if treatment is not implemented after the seizure?
- 3) What key elements would you include in the handoff report for this patient? Consider the situation-background-assessment-recommendation (SBAR) format.
- 4) Reflecting on Jackson Weber's case, were there any actions you would do differently? If so, what were these actions, and why would you do them differently?
- 5) Describe how you would apply the knowledge and skills you obtained in Jackson Weber's case to an actual patient care situation.

### Scenario 2: Asthma/Pneumonia

- 1) List in order of priority your initial nursing actions for Sabina Vasquez based on physical findings and family interaction.
- 2) What complications might Sabina Vasquez face if her symptoms are not recognized and if care is not initiated in a timely manner?
- 3) As you begin to think about discharge planning for Sabina Vasquez and her family, what teaching needs to be provided?
- 4) Reflecting on Sabina Vasquez's case, were there any actions you would do differently? If so, what were these actions, and why would you do them differently?
- 5) Describe how you would apply the knowledge and skills obtained in Sabina Vasquez's case to an actual patient care situation.

### **Scenario 3: Dehydration**

- 1) List in order of priority your initial nursing actions identified for Eva Madison based on physical findings and family interaction.
- 2) What complications might Eva Madison face if her symptoms are not recognized and treated in a timely manner?
- 3) What measures should be initiated to decrease anxiety in Eva Madison's mother while simultaneously caring for Eva?
- 4) Reflecting on Eva Madison's case, were there any actions you would do differently? If so, what were these actions, and why would you do them differently?
- 5) Describe how you would apply the knowledge and skills you obtained in Eva Madison's case to an actual patient care situation.

### **Scenario 4: Sickle Cell**

- 1) What is the relationship between fluid and oxygen therapy in the treatment of sickle cell anemia?
- 2) What complications might Brittany Long face if her symptoms are not recognized and treated in a timely manner?
- 3) Document the patient teaching that you would provide for Brittany Long and her family before discharge, including disease process, nutrition, signs and symptoms of crises, prevention of infection and dehydration, and pain management.
- 4) Reflecting on Brittany Long's case, were there any actions you would do differently? If so, what were these actions, and why would you do them differently?
- 5) Describe how you would apply the knowledge and skills that you obtained in Brittany Long's case to an actual patient care situation.

### **Scenario 5: Anaphylaxis**

- 1) List in order of priority your initial nursing actions identified for Charlie Snow based on physical findings and family interaction.
- 2) What complications might Charlie Snow face if symptoms are not recognized and treated in a timely manner?
- 3) What key elements would you include in the handoff report for this patient? Consider the situation-background-assessment-recommendation (SBAR) format.
- 4) Reflecting on Charlie Snow's case, were there any actions you would do differently? If so, what were these actions, and why would you do them differently?
- 5) Describe how you would apply the knowledge and skills that you obtained in Charlie Snow's case to an actual patient care situation.
