

**Covenant School of Nursing**  
**Instructional Module 2 Learning Guide**  
**Topic: Intravenous Therapy**  
**Unit 3 – Week 3**

**Learning Goals/Outcomes**

Upon completion of this lesson, you will be able to:

- Perform peripheral intravenous (IV) access
- Perform calculations required to safely administer intravenous medications (gravity, push)
- Implement standards of TJC and ISMP for safe medication administration
- Select correct materials needed to administer medication via peripheral and central intravenous sites
- Apply correct technique for administration of intravenous medication via gravity, piggyback, and push
- Implement Universal competencies during administration of intravenous medications

**Pre-Class Preparation**

Required:

- Potter and Perry Fundamentals of Nursing: Chapter on ➡ *Intravenous Administration*; and associated skills
- Chapter on ➡ *Parenteral Replacement of Fluids and Electrolytes through Discontinuing Peripheral Intravenous Access*; Include associated skills

Additional Resources:

- Gahart's Intravenous Medications
- MAUDE Adverse Event Report: PREFILLED SALINE FLUSH SYRINGE

- ISMP for safe medication administration <http://www.ismp.org/tools/>
- TJC Hospital National Patient Safety Goals  
[https://www.jointcommission.org/assets/1/6/2018\\_HAP\\_NPSG\\_goals\\_final.pdf](https://www.jointcommission.org/assets/1/6/2018_HAP_NPSG_goals_final.pdf)
- ISMP Safe Practice Guidelines for Adult IV Push Medications  
<http://www.ismp.org/Tools/guidelines/ivsummitpush/ivpushmedguidelines.pdf>

**Classroom Activities:**

- Theory content
- Hands-on with equipment
- Plickers participation

**Laboratory/Clinical Activities:**

- Calculate and administer intravenous medications correctly in both simulation and clinical situations
- Perform peripheral IV access on a simulated patient and a hospitalized patient (if available)
- Discontinue peripheral IV access on a simulated patient and a hospitalized patient (if available)

**Out of Class Work:**

- **Required Friday Week 2**
  - o HESI – Essential Collection: Clinical Skills: Preventing Medication Errors, Performing Venipuncture, Preparing an Infusion Site, Troubleshooting Intravenous Infusion, Troubleshooting Vascular Access Device (CVAD), Using an Infusion Pump, Changing Intravenous Tubing and Fluids, Changing Intravenous Dressings, Discontinuing Intravenous Therapy, Regulating an Intravenous Infusion, Administering Medications by IV Bolus, Administering IV Medications by Piggyback – focus on the extended texts, demos, and take the tests
  - o HESI Drug Calculations Online – Module 10: Intravenous Preparations with Clinical Applications

**Evaluation Methods**

<ul style="list-style-type: none"> <li>• Observation by faculty in clinical setting</li> <li>• Simulation observation</li> <li>• Week 3 Exam</li> <li>• Professional Skills Videos</li> <li>• Graded CPEs</li> </ul>
