Date action was taken against the license: 03/31/2016

Type of action taken against the license: Voluntary Surrender

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc. Intemperate use of controlled substances/chemical dependency.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.

If the nurse wouldn't have driven drunk, he would have never been charged with a DUI.
The nurse should have been honest with TBCN about his past convictions and sought help with his substance abuse issues earlier on.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

As a prudent nurse, if I ever suspect that one of my coworkers is under the influence of alcohol at work, I would have to report it. I am a patient advocate, so if I witness unsafe behavior, it is my duty to report what is going on immediately.
