## Disciplinary Action Summary Assignment

### Instructional Module 2

Student Name: Briana D. Quezada

Date: 05/17/2021

DAS Assignment # \_4\_ (1-4)

Name of the defendant: Carey Alicia Bailey

License number of the defendant: 890258

Date action was taken against the license: 07/11/2017

Type of action taken against the license: Remedial Education

*Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

Reportable Breach. HIPPA violation. Bailey did not take the pictures but knew of staff taking pictures of her patients without patient permission and failed to report it.

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.*

For this to have been prevented the nurse should've reported it immediately to the charge nurse or the manager nurse. This is where being a nurse advocate for the patient comes in place.

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

As a prudent nurse, being an advocate for my patient, I would report it right away and make sure my patient is safe from harm. Even if it is not me causing the harm directly it is still causing harm to the patient when nothing is being done about it. Especially if you know the harm is being done. That is why it is important that we advocate for our patient.
