

	Safety and Security	Standard Precautions	Communication
Video by Davis - Morphine admin	No gloves on for med admin	touches pt without gloves	doesn't properly teach the pt about the med
	avoids doing the 4 Ps	doesn't dispose of supplies properly	
	doesn't do the fall bundle rules- Leaves rail down, doesn't check if pt has non slip socks, bed in low position or check for clutter on floor.	no gloves on while handling med supplies	
	doesn't say the 7 rights to med admin	opens supply packages wrong risking contaminating the hub of the syringe	
		preps the IVP at bedside	
		takes the syringe off of the lumen after connecting it already	
		doesn't clean the stethoscope	

Start Unprofessional Practice

Critical Thinking	Documentation	Human Caring/Relationships	Professional Role Performance
Listens to heart after giving the med rather than prior	doesn't document the med admin	used a number of pet names	keeps phone on in front of them
Doesn't check RR or O2 before giving morphine			listens to music while caring for pt
			walks into room on cell phone
			doesn't introduce self to pt
			allows patient to listen to their own heart
