

Covenant School of Nursing
Instructional Module 6 Learning Guide
Topic: Pregnancy at Risk

Learning Goals/Outcomes

Upon completion of this lesson, you will be able to:

- Describe the development and management of hemorrhagic conditions of pregnancy
- Discuss the effects and management of hyperemesis gravidarum
- Describe the development and management of hypertensive disorders of pregnancy
- Compare Rh and ABO incompatibility in terms of etiology, fetal and neonatal complications, and management
- Describe the effects of pregnancy on glucose metabolism, the physiology and management of the patient with preexisting diabetes mellitus and those with gestational diabetes
- Describe the effects of obesity, heart disease, anemia, immune complex and neurological disorders and the required management during pregnancy
- Discuss maternal, fetal and neonatal effects of the most common infections that may occur in pregnancy
- Explain abnormalities that may result in dysfunctional labor
- Analyze factors that increase a woman's risk for preterm labor
- Describe maternal and fetal risks associated with premature rupture of membranes
- Discuss intrapartum emergencies and appropriate interventions
- Apply the nursing process to complications of pregnancy and labor and delivery

Pre-Class Preparation

Required:

- Murray, S., McKinney, E., Holub, K., & Jones, R. (2019). Foundations of Maternal-Newborn and Women's Health Nursing (7th ed.): Ch. 10 Complications of Pregnancy; Ch. 16 Intrapartum Complications
- HESI Comprehensive Review for the NCLEX-RN Examination (6th ed.): Ch. 6 Maternity Nursing: High-Risk Disorders Pgs. 240-253
- HESI Clinical Skills: Skills for Nursing Collection-Maternal Newborn Collection - review and complete the skills test
 - Deep Tendon Reflexes
 - Precipitous Delivery
 - Prolapsed Cord
 - Shoulder Dystocia
- HESI Case Studies-Maternal Newborn Collection
 - Ectopic Pregnancy
 - Gestational Diabetes
 - Preeclampsia

Additional Resources:

- Preeclampsia foundation website <http://www.preeclampsia.org/>
- CDC (Centers for Disease Control and Prevention): Diabetes and Pregnancy <http://www.cdc.gov/pregnancy/diabetes.html>
- Placental Abruption <https://www.youtube.com/watch?v=Z9dBS1xLQMc>
- Placenta Previa <https://www.youtube.com/watch?v=DMCowipIXgE>

Learning Activities

Classroom Activities:

- Lecture
- Case Study
- Videos

Laboratory/Clinical Activities: - Clinical/Community Rotations Out of Class/Computer Assisted Activities: - HESI Clinical Skills-Maternal Newborn Collection - Deep Tendon Reflexes - Precipitous Delivery - Prolapsed Cord - Shoulder Dystocia - HESI Case Studies-Maternal Newborn Collection - Ectopic Pregnancy - Gestational Diabetes - Preeclampsia	
Evaluation Methods	
- HESI Clinical Skills and Case Studies Quizzes - Clinical Performance Evaluation - HESI OB Proctored Exam - Unit 4 Exam
