

I have always been torn between being a nurse and a social worker. I would like to be a nurse so that I am in the position to provide to those who are not able to provide for themselves. I am really looking forward to providing care to others. Nursing will be a good fit for me because I am wanting to be able to physically provide to others, rather than being behind a desk with paperwork and phone calls only. Also, health care is very interesting to me and I really enjoy learning and keep up with current medical information and news. I am really looking forward to the ongoing education opportunities and seeing the progress in the medical field. I truly believe that nursing is my calling.
