

# Covenant School of Nursing

## Disciplinary Action Summary Assignment

### Instructional Module 2

Student Name: Amber Rosas

Date: 08/6/21

DAS Assignment # 2 (1-4)

Name of the defendant: Jenna Cherish Dickerson

License number of the defendant: 745592

Date action was taken against the license: 02/14/2012

Type of action taken against the license: Revoked

*Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.*

The defendant pled guilty to murder against her father. The defendant said she pointed the gun and fired it after her father started walking towards her. Her conduct was found to likely harm patients or the public.

*Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.*

Although the defendant did not commit murder against a patient, I feel that her license should still be taken away. I do not know why she murdered her father, but being a nurse is about saving lives and doing everything in our power to prevent any harm to come to them. I feel there were many things she could have done that would resolve her and her father's issues and she could still have her license.

*Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.*

A prudent nurse would make sure to call the police and get the defendant turned in. It is important to not let anyone who would potentially harm a patient get near them.
