Time	Event
00:00	You checked scene safety. It was correct to check scene safety in order to maintain your own safety.
00:30	You identified the patient.
00:53	You washed your hands.
01:02	You measured the blood pressure.
01:18	You checked the pulse oximetry.
01:34	You checked the radial pulse.
01:45	You measured the temperature.
02:01	You assessed the respiration.
02:20	You asked the patient: Do you have any pain?
02:28	The patient said: I'm finished. I'm done with you and your worthless medicine. Guard, take me back now! You did not answer the patient. You used the therapeutic technique of not answering the patient.
02:42	You asked the patient: Can you tell me a little bit more about what's going on with you today? It was appropriate to ask the patient what was going on with her to get an understanding of this.
03:00	The patient said: I am in so much pain. You are a nurse. Don't you know how to tell when someone is hurting? You answered: You are feeling overwhelmed? You used the therapeutic technique of translation to feelings
