

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: Tatum Lee Date: 8/18/2021

DAS Assignment # 4 (1-4)

Name of the defendant: Clarence Ndi Elad

License number of the defendant: 2328585

Date action was taken against the license: Dec 1, 2015

Type of action taken against the license:

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

-Sexual Assault and driving while intoxicated

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred.

-Sexual Assault should never be taken lightly. One thing I think the hospital could do would be to make it known that a hospital is a safe space and to speak up. When a victim knows their voice will be heard and they won't be dismissed even though they're the victim it makes them more comfortable and feel stronger to have that power over their abuser.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

-I would start with my charge nurse but then go straight to the top of the food chain within the hospital and even reach out to authorities. Even if the patient didn't want to press charges that is still a person who should not have the right to be a nurse or have the privilege to be around people in such vulnerable situations.
