

I Want to be a Nurse

I wanted to become a nurse because I saw how rewarding this career field could be, not just from the many job opportunities but from meeting and building friendships with people on a daily basis. I also wanted to be the one that my family could call upon when they had questions about their health and the foreign language that the Dr tends to sometimes speak. I know Nursing will and can change my life in more ways than I could even imagine and I'm looking forward to this opportunity of expanding my education in nursing. You have to really have the heart for this career and I believe God chose me!
