

Covenant School of Nursing

Disciplinary Action Summary Assignment

Instructional Module 2

Student Name: Samantha Ramos

Date: 10/01/2021

DAS Assignment # _1_ (1-4)

Name of the defendant: Mike Addison

License number of the defendant: 780911

Date action was taken against the license: December 14, 2012

Type of action taken against the license: Voluntary Surrendering if a license

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

Mike Addison was asked to for a drug tested where he failed.

Charge 1: Mr. Addison failed a pre- employer drug tested, testing positive for cocaine

Charge 2: Respondent received an Order to Cease and Desist and prohibited to practice Nursing.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred. Consider which universal competencies were violated.

In Mr. Addison's case the only way to prevent the action against him is to omit any drug use, or to seek help if faced with any addiction problems.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

If I were the first person to find that Mr. Addison was using cocaine or any other drug I would contact the appropriate personnel, like a nurse manager. I would want to report any nurse using drugs because it could cause a dangerous situation for a patient in the future if not reported. The number one concern is patient safety.
