

Covenant School of Nursing
Disciplinary Action Summary Assignment
Instructional Module 2

Student Name: Zandria Farris

Date: 10/2/2021

DAS Assignment: #1

Name of the defendant: Monica Torres Adame

License number of the defendant: 784008

Date action was taken against the license: 6/11/2013

Type of action taken against the license: Monica's life was revoked.

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

Monica's licenses were revoked because she was charged criminally for 2 counts of DWI with a child under the age of 15 in the vehicle. Monica's second charge false documentation. While working Home health care Monica documented that she visited a patient in the home, when in fact she did not.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred. Consider which universal competencies were violated.

Monica could have had a designated driver. Also, her having a child in the care enhanced the circumstances. Maria could have avoided the false documentation charge by being honest and trustworthy, if she did not see the client then that is what she should have documented.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

As a prudent nurse I would report the known criminal activity and falsification to the nurse manager.
