Disciplinary Action Summary Assignment

Instructional Module 2

Student Name: Briana Narvaiz

Date: 10/10/21

DAS Assignment # 2 (1-4)

Name of the defendant: David Allen Ayers

License number of the defendant: 779393

Date action was taken against the license: February 11, 2014

Type of action taken against the license: Revoked

Use the space below to describe the events which led to action taken against the license. If multiple charges were in play, be sure and cite them, e.g. drug diversion, HIPAA violation, abandonment, forfeiture on student loans, etc.

The defendant entered a plea of guilty to THEFT 20K.

Use the space below to provide a description of measures you think could have prevented any action being taken against the license and/or would have prevented harm to the patient, if harm occurred. Consider which universal competencies were violated.

The RN stole 20K, therefore, the person that is in charge at the hospital for monitoring money could have caught the act sooner. David Allen Ayers could have not stolen any money from facility and not faced any charges, however, he did.

Use the space below to describe what action you think a prudent nurse would take as the first to person to discover the event described, in other words, you are the one who discovers the patient has been harmed by the nurse or you have discovered the impairment or criminal activity cited in the disciplinary action.

I have discovered the criminal activity, therefore, I would immediately report the crime taking place and notify my charge nurse or whoever the assigned person would be for this type of criminal activity.
