

Clinical Reflection – Week 3

Reflect on your experiences during your **third week** of clinicals.

- Describe an interaction with a patient while you were conducting a comprehensive focused assessment.
- How did you feel?
- How did the patient respond to you?
- Did anything surprise you?
- What do you feel went well?
- What do you feel could have gone better?
- In what way did you contribute to your learning this week?
- What is your overall reaction to week 3 of clinicals?

Reflections should be a minimum of 250 words and address each bullet point in the rubric. Feel free to add anything else that you want to share.

Email your clinical reflection to your advisor **no later than 11:59 pm October 25, 2021**. Late submissions will not be accepted and will count as an unexcused absence.
