

IM 2 Simulated Patient Clinical Video Grading Rubric

Student Name: Joel Castillo Video: 2 Date: 12-19-21

There are three (3) ways to receive credit for the video:

1. Perform the scenario with all critical elements in each area of the grading tool
2. Verbalize a breach or mistake in real time and provide the nursing intervention to correct the breach or mistake then proceed with the video
3. When reviewing the video, honestly evaluate the nurse. Recognize all (if any) breaches or mistakes, record them as "unmet" and provide a nursing intervention to correct the breach or mistake

Universal Competency	Critical Elements	M	U
Safety (physical and emotional)	Introduce self	X	
	Identify patient (2 patient identifiers)	X	
	AIDET	X	
	Allergies	X	
	4 P's	X	
	Fall Bundle	X	
	Medication Administration: Medication, dosage, route, reason, assessment of route site(s), medication delivery equipment (IV pump, etc.)	X	
Critical Thinking	Assessment: See NII for critical elements pertaining to selected assessment(s)	X	
	Procedure Assess, Plan, Implement, Evaluate (APIE) (Selection of appropriate equipment, time management, organization, etc.)	X	
Standard Precaution	Asepsis:		X
	Hand hygiene	X	
	Don and change gloves (as indicated)		X
	Clean equipment (stethoscope, pulse ox, bedside table, med tray, etc.)	X	
	Sterile procedure		X
	Medication preparation	X	
	Medication delivery		X
Documentation	Teach Patient:	X	
	Medication	X	
	Procedure		X
	Scan patient	X	
	Scan medication	X	
	Save med documentation	X	
	Document assessment findings		X
	Document procedure		X
	Save all documentation		X
Human Caring and Relationship	Respect, active engagement, authenticity, empathy, etc.	X	
Professional Role Performance	Appearance, preparation, behaviors, resource management, etc.	X	
<p>Comments: I would have redone my sterile field as I said. I did not document my procedure and assessment findings. I could have done better asepsis and hand hygiene. Whenever I was doing my medication for Morphine, the clamp was stuck under the CVAD dressing so I would not have touched it or moved it out the way but for video purposes I pretended as if it wasn't stuck under. As well for the saline flushes did not have fluid in them but just pretended it did. At times I was pulling the syringes back while attached only because it wasn't going through the lumen which was a direct effect from the clamp not being opened at first.</p>
