

## IM 2 Simulated Patient Clinical Video Grading Rubric

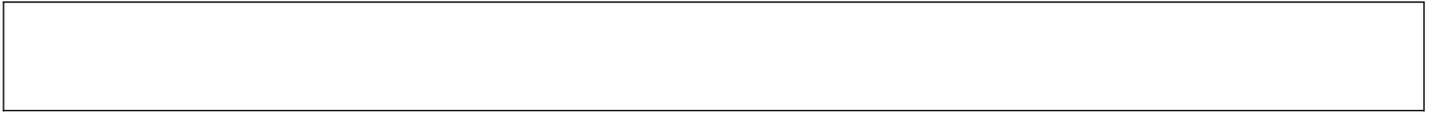

Student Name:  Molly Harris  Video:  2  Date:  December 18, 2021

There are three (3) ways to receive credit for the video:

1. Perform the scenario with all critical elements in each area of the grading tool
2. Verbalize a breach or mistake in real time and provide the nursing intervention to correct the breach or mistake then proceed with the video
3. When reviewing the video, honestly evaluate the nurse. Recognize all (if any) breaches or mistakes, record them as “unmet” and provide a nursing intervention to correct the breach or mistake

Comments: AIDET: Should have told patient about how long it would take. Med admin: I should have told the patient the dosage of morphine which was 1 mL. Assessment: I left out paresthesia where I should have asked if the patient had any numbness or tingling. Forgot to take my gloves off before leaving the med room, caught it in the video. I called it out in the video but I should have labeled my morphine with a blue sticker and then I should have taken the vial in the room with me to scan. I forgot this step so I wasn't able to scan my morphine. Should have checked morphine against the eMar in the room, caught it after the fact in the video.
