

School Nurse Experience Reflection Questions

1. How has your view of the student population changed?
 - My view from the student population hasn't changed. I loved it.
2. How has your view of the school nurse role changed?
 - It hasn't changed. I knew I would love it and I loved it when I got to observe
3. What surprised you about the school nurse experience?
 - I was always under the assumption that they would only hand out medications. I learned that they do hearing tests and vision tests as well. Lastly, I learned that they do COVID tests in the nurses office.
4. What did you observe during your time there?
 - I got to observe children taking their inhalers and PO meds. I also observed a vision test.
5. How was your experience different from what you expected?
 - It was not different from what I expected. I expected that I was going to love it & I sure did love it.
6. What are some of the needs/issues related to the health of the school age children that you may not have been aware of?
 - Mental health of young kindergarteners
7. Please list two developmental stages related to the population that you observed.
 - Industry vs. Inferiority
 - Concrete Operational
