**Student Name: _____**                    **Date: _____**

# Instructional Module 6: Electronic Fetal Monitoring

**Complete this during your labor and delivery experience and turn it in. Define any terms that you do not know prior to the completion of this assignment. Ask your instructor or TPC nurse to check over your findings as compared to the monitor strip you interpreted and comment on your findings below.**

## Baseline Data:

Date/Time_____ Maternal HX: EDC: _____ G: ___ P: _____ L:_____ Induction/Spontaneous

Age: _____ Maternal VS: T: _____ P: _____ R: _____ BP: _____

Cervix: Dilation: _____ Effacement: _____ Station: _____

Membranes: Intact: _____ AROM (time): _____ SROM (time): _____ Color: _____

Fetal Presenting Part: _____ Medications (type, dose, route, time):

_____

Epidural (time placed): _____ BP post Epidural: _____

## Assessment (Interpret the FHR strip-pick a moment in time):

Contractions:  TOCO: _____ IUPC: _____

Frequency: _____ Duration: _____ Intensity: _____

Fetal Heart Rate:  US: _____ FSE: _____ Baseline: _____

Variability: _____ Early Decelerations: _____

Late Decelerations: _____ Variable Decelerations: _____

Accelerations: _____ FHR Category based on assessment: _____

## Nursing Plan/Interventions:

Describe the labor process and nursing care given:

Describe any Intrauterine Fetal Resuscitation measures utilized and reason:

## Delivery:

Method of Delivery: _____ Operative Assist: _____ Infant Apgar: ____/____ QBL: _____

Infant weight: _____

Adopted August 2016/Revised 12/21

**Reflection of Labor and Delivery Experience:**
