2. What do you think are the student's personal strengths?

Brenley really showed eagerness to learn about the different disease processes that came through the PICU. She was very helpful and asked great questions, although she wished she could have had more hands on charting, she watched us chart on the new Epic system and made sure to thoroughly go through each individual patient case. When Brenley wanted to know something, she would look it up and make sure she knew what we were doing with the patient care.

3. What have you identified as an opportunity for improvement for the student?

My only wish for Brenley is that she got to do more hands on Epic charting and communication with the physicians and family. She will be a great nurse and a safe nurse.
