HESI Scoring Information

The RN Specialty Exams provide essential data regarding a student's mastery of concepts in relation to specific nursing content areas. The proctored HESI RN Specialty Exam outcomes will be used in final Instructional Module grade calculations if the student qualifies for progression by achieving a 75% average on unit exams. Cumulative results are also used in the determination for the IM8 capstone placement. The expected level of achievement for the HESI RN Specialty Exams is a HESI score of 850. If the student achieves less than 850 on a HESI RN Specialty Exam completion of all assigned remediation packets is required. Upon completion of the remediation packets, the student will take the second version of the HESI RN Specialty Exam. A HESI score of 850 or greater on all assigned HESI RN Specialty Exams to meet the CSON program outcomes. Students earning a HESI score of 850 or above will earn a 100% in the gradebook The HESI Conversion Score will be placed in the gradebook for students earning a HESI score of 849 or less. Example: (Conversion Scores vary based on exam-type and student performance)

Sample	HESI Score	Conversion score	Gradebook Score
Student 1	1030	92.35	**100%**
Student 2	876	80.66	**100%**
Student 3	839	74.88	**74.88%**
Student 4	703	63.25	**63.25%**
