The nurse obtained narcotic prescriptions from multiple physicians and got addicted to the medication.

The nurse should have sought for help before it got too serious. The nurse could have looked for a drug rehab center and I think it would have helped her. The nurse violated critical thinking and professional role performance in the universal competencies.

I would talk to the nurse and tell her to report it herself, and if it does not go well, I would report it to the charge nurse immediately for the safety of the patients.
